Program/Speaker	Dwight Vick....spoke to us about his involvement in International Harm Reduction Conference. This program deals with setting up drug courts using retired judges. It keeps people with drug or alcohol dependencies of the streets by requiring them to be employed, accountable to the court. The rate of recidivism is much lower and the success rate is higher than traditional jail times because the offender is helped to break the cycle of abuse. It is cheaper for the taxpayer because we are not housing them and feeding the 3 meals a day, providing medical and often legal assistance...they become working productive members of the community.
Queens Fine Time	All mothers of teenagers who are in Canyon High School because the Queen Mom made Katie pull weeds this morning and the Canyon High School Mothers should never do that to their child. Gregg Houlette because he spilled his tea all over the table. Steve Lawrence apparently had to get another plate of food it was so bad. Dwight Vick because his wife parked in the Queens parking spot.
